Contractors and Commercial Combined Policy (UK)

## 1. Summary

As a manufacturer of insurance products, we are required to provide you with information to enable the compliant sale of our products. The information contained in this document should support you in:

- Understanding the Convex product being distributed
- Identifying the appropriate target market
- Observing requirements of the Insurance Distribution Directive
- Safeguarding the best interests of the target market

We further outline the requirements of product oversight & governance (POG) rules and the respective roles and responsibilities of manufacturers and distributors.

## 2. Product Oversight and Governance

Product Oversight and Governance (“POG”) refers to the systems and controls firms have in place to design, approve, market, and manage products throughout the products’ lifecycle to ensure they meet legal/regulatory requirements and deliver fair value to customers.

POG is principally governed by the Insurance Distribution Directive (EU) 2017/2358. The Directive applies to all firms that manufacture and distribute insurance products in the UK/EU, however, care should be taken to identify any additional local rules that may apply on a state level. The information in this guide is limited to the requirements of the IDD and UK FCA product governance rules (PROD 4).

## 3. POG Roles and Responsibilities

Maintaining effective oversight and governance arrangements is the responsibility of both ‘Manufacturers’ and ‘Distributors’. A Manufacturer is “a firm which creates, develops, designs and/or underwrites a contract of insurance”, whereas a Distributor is anyone engaged in advising on or proposing contracts of insurance.

As a carrier, Convex is deemed a manufacturer, however, in some instances, there will be co-manufacture between Convex and another insurer or distributor. Co-manufacturing occurs when two or more parties have a “decision-making role in determining the essential features and main elements of a product, including coverage, price, costs, risks, target market and compensation/guarantee rights”.

### 3.1 Manufacturer's Responsibilities

It is the responsibility of (co)manufacturers to furnish distributors with appropriate information to guide the distribution of products. In addition, manufacturers must maintain a product approval process to:

- Identify suitable/non suitable target markets for products
- Conduct product testing
- Select appropriate distribution channels
- Periodically monitor and review products
- Develop insurance product documents (IPIDs)

The allocation of POG responsibilities between co-manufacturers will be reflected in the IDD endorsement of the Binding Authority Agreement or Slip.

Manufacturers must also ensure that staff engaged in the development and distribution of products complete a minimum of 15 hours relevant CPD training per annum.

### 3.2 Distributors Responsibilities

It is the responsibility of all distributors to maintain up to date knowledge of the product being sold, its intended target market, the needs of that market, and the distribution strategy. As per IDD requirements, regulated distributors must complete a minimum of 15 hours CPD training covering:

- The terms and conditions of product(s) being sold
- Relevant knowledge of claims handling
- Relevant knowledge of complaints handling
- Relevant knowledge of applicable laws/regulations governing distribution of the product
- Assessment of customer needs
- Business ethics standards
- Minimum necessary financial competency

Distributors must obtain from the manufacturer all the information required to distribute products in accordance with IDD requirements. Should further information be needed to enable the compliant distribution of a Convex product, please notify your Convex contact.

Distributors must make this product passport available to all approved sub agents/ intermediaries in the distribution chain.

Distributors must also regularly report to Convex the sales, claims, and complaints information it accumulates in relation to a Convex product. In addition, an annual questionnaire will be sent to distribution partners to monitor the ongoing fair value of products.

Lastly, distributors must be alert to and promptly notify Convex of any product related circumstances that may adversely affect the interests of customers.
